PREFACE.

In presenting this book to the public, I feel certain that it will give entire satisfaction inasmuch as it contains all the improvements promised at the time of publishing the first volume, in 1875: *Biographies Autographs and Uniformity of Portraits*.

The Biographies have been compiled from best sources and can therefore be relied upon; Autographs and Portraits were obtained from Senators and Members for this purpose only, at a great deal of trouble and expense and the work of preparing the artotypes has been carefully done so as to prevent the wrinkling of the sheets as in the previous edition. Another important addition which will be noticed, is the introduction of the Senate in this second volume now called "**The Illustrated Guide to the House of Commons and Senate of Canada.**"

As was suggested, the Senate should have taken precedence in the Title, but the suggestion was made too late to change it on the cover plate, which was already engraved. However I put the Senate before the House of Commons as far as Portraits and Printing are concerned, and this mistake (which does not materially injure the appearance of the book) will be avoided in the next edition to be published after next general elections, if I receive sufficient encouragement for the present publication.

In conclusion I may state that the delay in publication was occasioned by the difficulty in procuring some of the portraits, which were only recently received, but I considered that, rather than to have a number of blanks as in the first book, it was better to delay a few months and have this publication complete.

EXTRACT OF RULES, ORDERS

— AND —

FORMS OF PROCEEDINGS

— OF THE —

SENATE OF CANADA.

ABSENCE OF SENATORS.—Every Senator is bound to attend the Service of the House.

If his absence is prolonged to Two consecutive Sessions, his seat shall become vacant.

ADJOURNMENT OF THE SENATE.—If thirty minutes after the time of meeting, fifteen Senators, including the Speaker, are not present, the Speaker takes the Chair and adjourns the House till the next sitting day; the names of the Senators present being taken down by the Clerk. When it appears, during the sitting of the Senate, on notice being taken, that fifteen Senators, including the Speaker, are not present, the Senators who may be in the adjoining rooms being previously summoned, the Speaker adjourns the House as above.

If, at six o'clock, the business be not concluded, the Speaker leaves the Chair until half past seven.

When the Senate adjourns on Friday, unless otherwise ordered, it stands adjourned until the Monday following.

BLACK ROD.—See Gentleman Usher of the Black Rod.

BUSINESS OF THE SENATE.—At each daily sitting of the Senate, the Speaker shall call for, in the following order:—

10. Presentation of Petitions ;
20. Reading of Petitions ;
30. Notices of Motions ;
40. Motions ;
50. Orders of the Day.

The Orders of the Day, which, at the adjournment, have not been proceeded with, are considered as postponed until the next

sitting day, to take precedence of the Orders of that day, unless otherwise ordered.

CLERK OF THE SENATE.—The Clerk of the Senate, who has also the title of Clerk of Parliaments, has the same powers as those given to the Clerk of the House of Lords in England. His duties towards the Senate are identical with those of the Clerk of the House of Commons towards that body.

CLOSING.—See Prorogation.

DEBATES.—Every Senator desiring to speak is to rise in his place, uncovered, and address himself to the rest of the Senators, and not refer to any other Senator by name.

No Senator may speak twice to a Question before the Senate, except in explanation or reply, where he has made a substantive motion.

Any Senator may require the Question under discussion to be read at any time during the Debate, but not so as to interrupt any Senator while speaking.

When a Question is under Debate, no motion is received, unless to amend it; to commit it; to postpone it to a certain day; for the previous Question; for reading the Orders of the day, or for the adjournment of the Senate.

GENTLEMAN USHER OF THE BLACK ROD.—This office was created by king Henry VII and the occupant ranks among the high dignitaries of State. The essence of the office is that this officer is the medium of communication between the Queen, and the people represented by the House of Commons, when the latter are summoned before Her. He is one of the principal officers of the Senate, and Master of Ceremonies there on all State occasions, is responsible for order in the House during the sittings of the Senate, where he has a seat on the Floor of the House. He is appointed by the Crown and is a Member of the Household.

MEETING OF THE SENATE.—The time for the ordinary meeting of the Senate during the Session, is at three o'clock in the afternoon, unless some other time shall have previously been ordered. The debates are open to the public on production of a card signed by the Gentleman Usher of the Black Rod.

NEW PARLIAMENT.—On the first day of the meeting of a New Parliament, or of any subsequent Session, His Excellency having opened the Session by a gracious Speech to both Houses, and prayers being said, some Bill is read *pro forma*; the Speech from the Throne is reported by the Speaker, and a Committee of Privileges, consisting of all the Senators present during the Session, is appointed.

PROROGATION.—The Prorogation is the postponement of the Proceedings to another specified date.

SENATE.—The Senate or Upper House shall, subject to the Provisions of the B. N. A. Act, consist of Seventy-two Members, who shall be styled Senators.

The number of Senators shall not at any time exceed Seventy-eight, unless in case of the Admission of New Foundland, when the number can be raised to Eighty-two and the Three Divisions of Canada: viz: *Ontario*, *Québer* and the *Maritime Provinces* shall be equally represented in the Senate.

3	"	"	British Columbia.
2	"	"	Manitoba.

The Privileges, Immunities, and Powers held, enjoyed and exercised by the Senate, are such as are from Time to Time defined by Act of Parliament of Canada, but so that the same never exceed those at the passing of the B. N. A. Act, held, enjoyed

and exercised by the Commons House of Parliament of the United Kingdom of Great Britain and Ireland.

The Senate has such a Control over the House of Commons that no Bill originated in this Branch of the Legislature, can be presented to the Governor General for his approval, unless it has passed in the Senate. It is the same with regard to the Estimates, which cannot be authorized unless previously adopted by the Senate, which cannot however amend any part of.

SENATORS.—The Governor General shall from Time to Time, in the Queen's Name, by Instrument under the Great Seal of Canada, summond qualified Persons to the Senate; and, subject to the provisions of the B. N. A. Act, every Person so summoned shall become and be a Member of the Senate and a Senator.

He shall be either a Natural-born subject of the Queen, or a subject of the Queen naturalized by an Act of the Parliament of Great Britain, or of the Parliament of United Kingdom of Great Britain and Ireland, or of the Legislature of One of the Provinces of Upper Canada, Lower Canada, Canada, Nova Scotia or New Brunswick, before the Union, or of the Parliament of Canada after the Union :

(3.) He shall be legally or equitably seised as a Freehold for his own Use and Benefit, of Lands or Tenements held in free and common Socceage, or seized or possessed for his own Use and Benefit, of Lands or Tenements held in Franc-alien or in Roture, within the Province for which he is appointed, of the Value of Four thousand Dollars, over and above all Rents, Dues, Debts, Charges, Mortgages, and Incumbrances due or payable out of or charged on or affecting the same :

(4.) His Real and Personal Property shall be together worth Four thousand Dollars over and above his Debts and Liabilities :

(5.) He shall be resident in the Province for which he is appointed unless called upon to form part of the Privy Council and is thereby obliged to reside at the Seat of Government.

(6.) In the case of Quebec, he shall have his Real Property Qualifications in the Electoral Division for which he is appointed, or shall be resident in that Division.

A Senator shall not be capable of being elected or of sitting or voting as a Member of the House of Commons.

A Senator shall, subject to the Provisions of the B. N. A. Act, hold his place in the Senate for Life.

SERGEANT-AT-ARMS.—The Powers and Duties of the Sergeant-at-Arms of the Senate are similar to those of the Sergeant-at-Arms of the House of Commons with regard to this Branch of Parliament.

SPEAKER OF THE SENATE.—The Governor General may from Time to Time, by Instrument under the Great Seal of Canada, appoint a Senator to be Speaker of the Senate, and may remove him and appoint another in his Stead. Contrary to the Rules of the House of Commons, the Speaker of the Senate shall in all Cases have a Vote, and when the Voices are equal, the Decision shall be deemed to be in the Negative.

USHER OF THE BLACK ROD.—See Gentleman Usher of the Black Rod.

EXPLANATIONS.

Persons desirous of finding the seat or constituency of a member of either House, will look at the alphabetical list, for the name which preceeds the number of the plate containing the portrait, followed by the name of the Division or Constituency which he represents and the number of his seat.

The plates are all numbered, from I to XXXVI on the left-hand side at the bottom; the Constituencies or Divisions are alphabetically arranged above the portraits, nine on each sheet or plates and the seats on the diagrams are all numbered from 1 to 206 over the names.

To ascertain the name of a member, look at the number corresponding to his seat on the diagram, where, with his name, his Portrait, Autograph, Division or Constituency can all be found.

REMARKS.

In consequence of the Changes noted at page 180, the diagrams of each House, may, in some cases, be slightly inaccurate, for although every seat occupied by the members at the last session of Parliament, is properly located, some slight changes may arise, from vacancies occurring, from the election of new members or from members changing place.

ELECTIONS.—The Elections for Representatives in the House of Commons take place after each dissolution of the Parliament and in this case they are called General Elections. However the Number of Members of the House of Commons may be from time to time increased by the Parliament of Canada, provided the proportionate Representation of the Provinces prescribed by the Act is not thereby disturbed.

The House has to meet at least once a year for the despatch of business. The time chosen for that purpose is generally in February and the Session lasts about two months. On its first assembling after a General Election, the House of Commons proceeds with all practicable speed to elect one of its Members to be Speaker. When all business is transacted and the Estimates voted, the House then is closed.

The hour of meeting of the House of Commons is 3 o'clock p. m. and 7½ o'clock p. m. and the debates are open to the

MACE.—The Mace is the sign of the Legislative Authority which rests in the House. The Sergeant at Arms, who is responsible for its safe-keeping, places it on the table at the opening of each Session. It remains on the table all the time of the proceedings of the House as a body ; but it is taken off when the House is in Committee and at the close of each meeting.

PRIVILEGE.—Whenever any matter of Privilege arises, it is immediately taken into consideration.

PRIVY-COUNCIL.—The Privy Council is composed of all the past and present Ministers of the Crown since Confederation but those only who form the Administration take part in its deliberations. It is actually composed of Fifty Two Members; Fourteen of whom form the Cabinet. One of them has no Portfolio.

PROROGATION.—The Prorogation of Parliament is the adjournment from one Session to another. It is never prorogued for a Period longer than Forty Days at a time. The time during which Parliament is prorogued, is called the *Recess*.

QUESTIONS PUT BY MEMBERS.—Questions may be put to Ministers of the Crown relating to public affairs; and to other members, relating to any Bill, Motion or other public matter connected with the Business of the House, in which such Members may be concerned; but two day's Notice must be given for leave for putting a Question.

SESSION.—The Session is the term during which the House is assembled until its prorogation. A Session may be postponed from one date to another without being closed, but when all necessary business is completed, it is generally prorogued, or closed until the next year.

SPEAKER.—The Speaker, chosen by the Members of the House at the opening Session of Parliament after General Elections, is the presiding Officer of the House of Commons. He preserves order and decorum and decides Questions of Order. He takes no part in any Debate before the House, except when in Committee; but in case of an inequality of Votes, he gives a Casting Voice.

PART II.

MISCELLANEOUS INFORMATIONS.

PLACES OF INTEREST IN AND AROUND OTTAWA.

THE GOVERNMENT BUILDINGS.

The Parliament Buildings stand on a high plateau of some 30 acres in area. The buildings form three sides of a quadrangular figure, and are widely detached. The Parliament or main building facing Wellington street; and the Departmental Buildings facing inwards to the square and forming the other two sides of the figure. The splendour of these Buildings, their fine commanding site, together with the beauty of the surrounding scenery, place them in a very enviable position; compared with all other structures used for similar purposes on this continent, and some say, even in Europe; and must ever make them objects of interest to the tourist and the stranger.

The style of the Buildings is the Gothic of the 12th and 13th Centuries, with modification to suit the climate of Canada. The ornamental work and the dressing round the windows are of Ohio sandstone. The plain surface is faced with a cream-colored sandstone of the Potsdam formation, obtained from Nepean, a few miles from Ottawa. The spandrels of the arches, and the spaces between window-arches and the sills of the upper windows, are filled up with a quaint description of stone-work, composed of stones of irregular size, shape and colour, very neatly set together. These with the Potsdam red sandstone employed in forming the arches over the windows, afford a pleasant variety of colour and effect, and contrast with the general masses of light coloured sandstone, of which the body of the work is composed.

This Building, as you approach from Wellington street, presents a very imposing appearance. The central of the seven towers, which is very rich in design, projects its width from the front of the Building, and is about 180 feet high. The body of the building in front is forty feet high, above which rises the slanting roofs of slate, surmounted by lines of ornamental iron

cresting. The building is 472 feet long; and the depth from the front of the main tower to the rear of the library is 570 feet, covering an area of 82,886 superficial feet. It stands at a distance of 600 feet from Wellington street, so that the quadrangle formed on three sides by the Buildings and on the fourth by the street, is 700 feet from east to west, and 600 feet from north to south; thus affording a very spacious square. The ground upon which the buildings stand varies somewhat in elevation, that forming the site of the Parliament Building being the highest. The basement floor of the buildings is assumed to be 160 feet above the ordinary summer level of the river, while that of the Eastern and Western blocks is 135 and 142 feet respectively. The increased elevation, however, improves very much the general effect of the buildings.

The main entrance is through the principal tower, the spacious arches of which admit of a carriage way under them. The piers which support the tower are ornamented with pillars of polished Arnprior marble. Passing through it we enter a large hall, paved with tiles, and also surrounded with marble pillars. In this large lobby is placed a life size oil portrait of the popular predecessor of the present Governor General "Lord Dufferin, former Governor General of Canada."

THE SENATE CHAMBER.

On the right of the Main entrance is the Senate Chamber. The Room measures 82 by 45 feet, the ceiling being over 50 feet high, and formed of fine open work. The skylights above this intermediate ceiling, with the stained glass windows at the sides, throw a plentiful soft light over the whole place. The room is surrounded by large piers of a light greyish marble from Portage du Fort, surmounted just above the galleries by clusters of small pillars of the dark Arnprior; the arches supported by these pillars being again of the light coloured marble. The galleries can accommodate about 1,000 persons.

Outside and around the Senate Chamber are placed the oil portraits of the following Statesmen of Canada, viz:

THE LIBRARY OF PARLIAMENT.

At the time of the Union of Upper and Lower Canada, in 1841, the library of each Province were thrown into one library, and formed about 6000. In 1849, it had grown up, by purchase and gifts, to 25,000 volumes, all of which, save about 200 volumes, were destroyed by fire in Montreal, on the 25th of April. It was reconstituted, and on the first of February, 1854, it was, for the second time, destroyed by fire, in Quebec. At that date, the library contained 17,000 volumes, 8000 of which were saved from destruction, by the students of the Quebec Seminary. At the time of the removal of the seat of the Government from Quebec to Ottawa, the library numbered about 55,000 volumes.

The library building, then in course of construction, not being ready to receive the library, the picture gallery apartments, were temporarily fitted up for its use and it remained thus until 1876, when it was finally removed in the present library building. This building is of circular form, and has a diameter of 80 feet, its height from floor to top of the inside of the coupole is 160 feet. The framing of the two galleries around the library is in cast iron, covered in fine richly sculptures. The flooring of the galleries is made of glass one inch thick. There are 393 gas lights in ten rooms. The main Hall contains about 60,000 volumes. There are 6 rooms between the interior and exterior walls, all filled up with books. The old library has been fitted up for the use of the Supreme Court, but the gallery has been kept for the use of the library.

The library staff is composed of one librarian, one assistant, five clerks and four messengers.

The library is opened every day, except sundays and legal holidays from 9 A. M. to 4 P. M. during recess of Parliament and during session, every day, from 9 A. M. until the House adjourns, generally about midnight.

The annual grant for the purchase of books is \$7000.

The main portion of the works composing the library, belongs to Law; Parliamentary papers and records of all countries; Science and Art. Classics although well represented are not so complete as the Law department. But a particular attention is paid to works on America and more particularly on Canada.

THE VICTORIA TOWER.

On the top of this Tower the Tourist can see at a great distance the surrounding country and he has a splendid birds-eye view of the City, its height being very near 300 feet above the level of the Ottawa River. From the ground, there are 287 steps to the top which is crowned with an iron railing 7 feet high so as to prevent accidents. In this tower is placed the beautiful clock for which an estimate of \$7,000 was voted by Parliament in 1875.

This clock was manufactured by M. F. Dent & Co. 33 Cockspur street, London, England and the mechanism was put up by Geo. Sutherland of Ottawa. It is an eight day clock with Dennissons' three leg gravity escapement and two seconds compensated pendulum. The length of pendulum is 14 feet and its weight is 500lbs. It has a remontoir train to move hands every half minute. It is driven by weights of 500lbs. for time portion and 700lbs. for striking power. It strikes every hour with a 50lbs. weight on a bell of one ton weight situated about 60 feet below the mechanism. This bell was manufactured by Meneely and Kimbury, Troy, New York, U. S. 1875. The dials, four in number are made of black slate $1\frac{1}{2}$ thick with gilt figures and they are 8 feet diameter.

Mr. J. J. Radford who has charge of this clock says it is one of the best time-keeper.

THE GOVERNMENT PATENT OFFICE.

In the upper story of the central wing of the Western Block, contains over 10,000 miniature models of all inventions patented in Canada since 1824, nicely assorted in rich glass cases of large

dimensions. In a room adjoining are placed the different specimens, of minerals, woods, grain &c., sent to the Centennial Exhibition of Philadelphia in 1876 by the Dominion Government.

THE LOVERS WALK.

A charming promenade hidden on the side of the rock on which the Parliament buildings stand. This road which is over a quarter of a mile in length is wide and kept in good order, seats are placed here and there for the convenience of persons who want to enjoy a solitary rest. From that place the tourist has a splendid view of the Ottawa river, in all its *grandeur* including the chaudière Falls in the distance.

THE RIDEAU CANAL LOCKS.

Eight in number, are situated at the extremity of the Rideau Canal. They are 134 feet long and 33 feet wide each. Their construction was begun in the spring 1827 by Colonel By, who gave his name to this city formerly called Bytown. On the 16th August of the same year, the corner stone was laid by the celebrated traveller Franklin who happened to be visiting this part of the country, and the whole work was terminated in the year 1831. Their cost is £803,774.5.5 Sterling. Their object is to establish a communication for navigation purpose between the Ottawa river and the Rideau Canal which takes its source at Kingston, on Lake Ontario.

THE FIRE ALARM TELEGRAPH.

Of which the principal Office is situated at the City Hall, Elgin St. was erected in 1874 and serves as in other cities to transmit from one part of the city to another by means of electricity, the alarm in cases of fires, giving the locality of the conflagration.

MAJORS HILL PARK.

Extending from Sussex Street East to St. Patrick Street West on the Cliff this side of the Rideau Canal opposite the Parliament Buildings. Although not quite completed, still it presents a nice aspect with its fine walks, flower beds, rustic kiosks, seats, etc., and especially its beautiful view of the river and the Chaudière Falls.

THE RIDEAU FALLS.

Situated at the northern terminus of the street railway line and formed by the Rideau River, which precipitates itself into

the Ottawa from a height of about 50 feet, dividing its waters as it goes down forming two sheets of water having the appearance of a pair of large curtains. (These falls have to be seen in the spring, for in any other season the waters are not high enough to give a correct idea of them). Persons can go down under the Falls where shower baths are to be had.

THE WATER WORKS.

Were constructed in 1874. Their hydraulic powers are situated at about three quarter of a mile from the Parliament Buildings, at the extreme end of Wellington street. The water which they supply in immense quantity to the City come from above the Chaudière Falls and is considered the purest in Canada.

THE SLIDES.

Were constructed in 1832 by Mr. Geo. Buchanan, to avoid the Chaudière Falls and thereby facilitate the driving of the lumber going down towards the markets of Montreal and Quebec. They are 26 feet wide and 874 feet in length, and their slope is rendered nearly insensible by stops, placed at distances, from 66 feet to 380 feet between each. In summer the amateurs of sensation, find great pleasure in going down these slides on the rafts. This little trip although very agreeable, might prove dangerous if not made with prudence.

THE CHAUDIÈRE FALLS.

So called, by the first travellers in this country, on account of its basin resembling a huge-kettle (*chaudière* being the french of this word.) It is situated at the western extremity of the City at a distance of about two miles from the Parliament Buildings, at the terminus of the street railway line. Its height is only 60 feet but its immense volume of water nearly equals that of the Niagara Falls, and whirls in a vast funnel, the width of the Ottawa river, immediately over, being about 500 yards whilst below, it measures only about 50 yards.

THE UNION SUSPENSION BRIDGE.

Was erected a little below the Chaudière Fall in 1843-44. An interesting peculiarity is that a person standing halfway on this bridge has a foot in each of the Provinces of Ontario and Quebec, the Ottawa river being the division line between the two.

ISLAND PARK.

Beautifully situated on the point of Kettle Island about two miles down the Ottawa River. It is a fine ressort in summer time for parties rowing down the river. The proprietor Mr. E. J. O'Neill has a little ferry-boat plying every hour to and from the city for the accomodation of pic-nic parties, etc.

ROBERT'S SULPHUR SPRINGS.

Situated at a little distance from the Montreal Road about 5 miles from the city. The water from these springs contain a great quantity of sulphur which makes it a cure for various diseases. The proprietor Mr. S. Robert has built on the Spot a commodious hotel for the confort and accomodation of the numerous persons who go there for the sake of taking hot or cold sulphur baths. Amateurs of curiosities can find on the banks of the little river running close-by all kinds of stones, some oval, some round like balls, and most of them containing fossils.

BORTHWICK'S SPRINGS.

These mineral springs, three in number, are situated 6 miles east of the city on the Russell Macadamized Road. There are good accomodations for invalid boarders, wishing to pass the summer season there.

CALEDONIA SPRINGS.

These renowned mineral springs are at a short distance of the Capital, and may be easily reached. The distance from Ottawa to l'Orignal at which place the Steamer "Peerless" call every day, is 50 miles; once there, the stages take the visitors to the springs (7 miles off,) where accomodation for 300 boarders can be had, in the spacious hotel lately purchased by the Grand Hotel Company. Passengers from Q. M. O. & O. Railway can stop at Calumet where the ferry-boat will cross them to L'O-rignal.

HULL IRON MINE.

This mine, owned by Mr. A. H. Baldwin, may be reached by a road of about two miles from the Gatineau river. Both the facilities for working the mine and getting out the products are good, as the mine is not worked by digging as is generally the case but is approached sideways, thereby saving considerable expense. Wagons or sledges convey the products to the wharf on the Gatineau, from where it is shipped to Cleveland by barges.

THE GROTTO OF WAKEFIELD.

An immense natural cavern in a mountain at a distance of twenty-one miles from Ottawa, in the Township of Wakefield. Mr. Pélissier, on whose property it is situated, declares himself not to have been able to ascertain the depth. The interior is divided into compartments of irregular form and shape, the ground is not always of the same level. As a marvel this grotto is well worth a visit, and the road is in pretty good order as far as that place. The best road to follow, is the one on the right side of Gatineau river, going up. Trout fishing 8 miles further.

TABLE OF FRANCS AND CENTIMES REDUCED INTO
STERLING, ALLOWING 25 FRANCS TO THE
£ STERLING.

EXPLANATIONS.

Exchange on Paris is calculated at Sterling rates, adding however $\frac{1}{2}\%$ for difference between Paris and London. Therefore if a draft on London at 60 days sight would be sold at $10\frac{1}{2}\%$ the same on Paris would cost 11% premium.

EXAMPLE.—Required the sterling amount of Frs. 216.05 according to the present table.

Frs. 200 00	=	£8 0 0
16 00	=	0 12 9 $\frac{60}{100}$ ths
0 05	=	0 0 0 $\frac{48}{100}$ ths

Frs. 216 05 £8 12 10 $\frac{8}{100}$

By means of the ordinary Sterling Exchange Tables the cost of Frs. 216.05 at 60 days sight may be easily ascertained or it may be calculated as follows, viz:

Reduce £8 12 10 into dollars.....	\$34.57
Add $\frac{1}{2}\%$ of the amount.....	3.84

\$38.41

Add 11% on \$38.41 (if exchange on London is at $10\frac{1}{2}\%$ premium).....	4.22

REMARKS.

Game Laws under jurisdiction of Provincial Governments. No official organization to enforce them. Their provisions are somewhat incongruous, and for want of practical sympathy and machinery such as keeps in active and efficient operation the fishery laws, they are disregarded. The Provinces being contiguous, their geographical situation admits of, and requires some degree of uniformity as to close seasons. Many friends of game preservation desire a uniform date, where practicable, in border districts—say 1st September, for commencement of autumn shooting. Also, further prohibition of spring shooting, and summer shooting, of woodcock, with rational modifications to suit sectional differences.

~~For~~ Insectivorous Birds beneficial to Agriculture, not to be killed at any time in Ontario, and in Quebec the close season is from 1st March to 1st August.

Indians are forbidden to shoot illegally the same as whitemen.

Each person guilty of violating these Regulations is liable to fine and costs, or in default of payment is subject to imprisonment.

No person shall, during such prohibited times, catch, kill, buy, sell, or have in possession any of the above-mentioned kinds of Game.

Game cannot legally be disposed of one month after the beginning of the periods limited for their protection.

Each person guilty of violating these Regulations is liable to fine and costs, or in default of payment is subject to imprisonment.
 No person shall, during such prohibited times, catch, kill, buy, sell, or have in possession any of the above-mentioned kinds of Game.

REMARKS.

Fishery Laws are administered by Dominion Government Officers appointed to enforce them in each district where fisheries exist. These Officers are vested with magisterial powers, and act summarily. The special prohibitions are supplemented by various prohibitory clauses designed to strengthen protective measures. The Governor in Council can adopt Regulations to increase efficiency, or relax stringency of statutory enactments, in accord with local circumstances or special necessities.

Net or Seine fishing without Licenses is prohibited.

Nets must be raised from Saturday night until Monday morning of each week.

Nets cannot be set, or Seines used so as to bar channels or bays.

Indians are forbidden to fish illegally the same as whitemen.

Each person guilty of violating these Regulations is liable to fine and costs, or in default of payment is subject to imprisonment.

No person shall, during such prohibited times, fish for, catch, kill, buy, sell, or have in possession any of the kinds of Fish mentioned above.

THE DOMINION LANDS OF CANADA.

These lands are situated in Manitoba and the North West Territories.

The system of survey is rectangular, the township being six miles square, divided into thirty-six sections of one mile square each, which latter are subdivided on the ground into quarter sections of 160 acres each.

Sections 11 and 29, amounting to 1280 acres, in each township, are dedicated to the purposes of public schools.

Sections 8 and 26 in each township represent the one-twentieth reserved throughout the "fertile belt" to the Hudson Bay Company under the Deed of Surrender.

Dominion lands open for sale or settlement may be purchased for cash at one dollar per acre, may be entered by Military Bounty Warrant, or may be entered as homesteads for actual settlement.

Homestead settlers pay a fee of \$10.00 at the time of entry for the land, and are required to reside upon and cultivate the quarter-section entered as a homestead, for three years, upon which they get a patent free.

The homestead settler has also the privilege on payment of a further sum of Ten dollars of entering for an adjoining quarter-section of land as a preemption, of which he is admitted into immediate possession and cultivation, and for which, on the completion of his homestead conditions, he may acquire the full title on the payment of One dollar per acre.

Coal lands are not subject to the operation of the Homestead provisions of the Dominion Lands Act.

Persons desiring to carry on Coal mining in unsurveyed territory may apply to purchase, sending forward the description by a Dominion Land Surveyor, setting forth generally the situation and dimensions of the land and accompanying the same by the price thereof, estimating the number of acres, which shall not exceed 320, at the rate of One dollar per acre.

The Minister of the Interior with the view of preventing undue monopoly in Coal lands, may in his discretion, on a township being surveyed, exempt from sale and settlement, the lands in such township containing Coal, excepting those on which mining may have been carried on under the above regulation, and may subsequently sell or otherwise deal with the same in such manner as may be deemed expedient by the Governor in Council.

The Dominion Lands Act is not intended to apply to territory over which the Indian title may not at the time have been extinguished.

The above is merely a synopsis of the law embracing the policy connected with the Administration of the Dominion Lands. Persons wishing more full and complete information are referred to the Dominion Lands Act.

All communications relating generally to the Dominion Lands to be addressed to the Honorable the Minister of the Interior, at Ottawa.

All specific applications to enter Surveyed Lands should be addressed to the agent of Dominion Lands, Winnipeg, Manitoba.

By order,

LINDSAY RUSSELL,

Surveyor General.

Dominion Lands Office, }

POST OFFICE SAVINGS BANK, CANADA.

1. Three hundred Post Office Savings Banks in Ontario and Quebec are open daily for the receipt and repayment of deposits, during the ordinary hours of Post Office business.

2 The direct security of the Dominion is given by the Statute for all deposits made.

3. Any person may have a deposit account, and may deposit yearly any amount of dollars, from \$1 up to \$300, or more with the permission of the Postmaster General.

4. Deposits may be made by married women, and deposits so made, or made by women who shall afterwards marry, will be repaid to any such woman.

5. As respects children under 10 years of age money may be deposited—

FIRSTLY—By a parent and friend as Trustee for the child, in which case the deposits can be withdrawn by the Trustee until the child shall attain the age of ten years, after which time repayment will be made only on the joint receipts of both Trustee and child.

SECONDLY—In the child's own name—and, if so deposited, repayment will not be made until the child shall attain the age of ten years.

6. A depositor in any of the Savings Bank Post Offices may continue his deposits in any other of such offices, without notice or change of pass-book, and can withdraw money at the Savings Bank Office which is most convenient to him. For instance, if he makes his first deposit in the Savings Bank at Cobourg, he may make further deposits at, or withdraw his money through the Post Office Bank at Collingwood or Quebec, Sarnia, Brockville, or any place which may be convenient to him, whether he continue to reside at Cobourg or remove to some other place.

7. Each depositor is supplied with a pass-book, which is to be produced to the Postmaster every time the depositor pays in or withdraws money, and the sum paid in or withdrawn are entered therein by the Postmaster receiving or paying the same.

8. *Each depositor's account is kept in the Postmaster General's Office in Ottawa, and in addition to the Postmaster's receipt in the pass-book, a direct acknowledgement from the Postmaster General for each sum paid in is sent to the depositor. If his acknowledgment does not reach the depositor within ten days from the date of his deposit, he must apply immediately to the Postmaster General by letter, being careful to give his address, and, if necessary, write again, because the Postmaster's receipt or entry in the pass-book is not sufficient without the further receipt for the money from Ottawa.*

9. *Every depositor must send his book once a year, viz : on the anniversary of his first deposit, for comparison with the Books of the Department, and for insertion of interest. The Book will be returned to him by first mail. At no other time should the depositor suffer his book to be out of his possession.*

10. When a depositor wishes to withdraw money, he can do so by applying to the Postmaster General, who will send him by return mail a cheque for the amount payable at whatever Savings Bank Post Office the depositor may have named in his application.

11. Interest at the rate of 4 per cent per annum is allowed on deposits, and the interest is added to the principal on the 30th June in each year.

12. Postmasters are forbidden by law to disclose the name of any depositor, or the amount of any sum deposited or withdrawn.

13. No charge is made to depositors on paying in or drawing out money, nor for pass-books, nor for postage or communications with the Postmaster General in relation to their deposits.

14. The Postmaster General is always ready to receive and attend to all applications, complaints, or other communications addressed to him by depositors or others, relative to Post Office Savings Bank business.

15. A full statement of the Regulations of the Post Office Savings Bank may be seen in the Official "Postal Guide," and at any Post Office in the Dominion.

GOVERNMENT HOUSE, OTTAWA.

Friday, 13th day of June, 1879.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN
COUNCIL.

ON the recommendation of the Honorable the Minister of Customs, and under the authority given and conferred by the 59th section of the Act 40 Victoria, chap. 10, intituled : " An Act to amend and consolidate the Acts respecting the Customs," —His Excellency the Governor General in Council has been pleased to make and prescribe the following regulations for slaughtering and curing imported swine in bond :

1. Upon the importation of swine for the purpose of slaughtering, the importer shall enter the same for warehouse upon the usual form of such entries, stating upon its face the number, live weight and value of the herd, and the rate and amount of duty as prescribed by the tariff in force at the time of making such entry. Such importer shall then execute a bond to the Queen, with two sufficient sureties to the satisfaction of the Collector of Customs at the port where such carcasses are imported or warehoused, in double the amount of such duty, the condition of such bond shall be that upon due exportation within one year of the products of the swine so imported, slaughtered and cured in the form of pork, bacon, hams, shoulders and lard, or payment of the duty secured by the said bond, then the said bond shall be and become null and void, otherwise shall remain in full force and virtue.

2. After the reception of the swine into the bonding warehouse or slaughter house, it shall not be lawful to remove any of them alive therefrom, nor shall any part of the produce of such swine be removed therefrom for any purpose, without a permit from the Collector or proper officer of Customs, as in the case of all other bonded goods.

3. The bond given by the importer as before specified shall be cancelled upon payment of the current rate of duty imposed upon swine imported into Canada, or upon exportation of seventy per cent of the actual live weight of the swine as originally entered, in the form of pork, bacon, hams, shoulders and lard ; and if a less quantity than seventy per cents is exported, then duty shall be paid upon the quantity deficient, at the rate imposed upon the live animal in proportion to value.

4. Swine imported in the carcass to be cured and packed in bond may be entered in the usual way for warehouse, and be placed in the premises established as a warehouse of this class for the special purpose of curing and packing. The weight and value of such carcasses shall be stated upon the face of the entry for warehouse, and the importer shall execute a bond to the Queen with two sufficient sureties to the satisfaction of the Collector of Customs at the Port where such carcasses are imported or warehoused, in double the amount of duty accruing thereupon to be calculated according to the highest rate of duty imposed by the tariff upon any part or parts of the said carcasses, conditioned for the due exportation of the same or payment of duty within one year from date of first entry.

5. The meats being the produce of such carcasses, shall be calculated for exportation or duty, as the case may be, after allowing in respect of meat in pickle a reduction of five per cent. from the original weight, or weight for first entry, and these percentages may be deducted by compensation entries from the warehouse books at the time of each ex-warehouse entry, in proper proportions, and if any less quantity is exported, than the original weight, less the allowance above specified, the duty shall be collected upon such deficiency at the rate of duty required at the time by law upon meats of the kinds exported.

Clerk Privy Council.

St. Lawrence Hall, Montreal.

ST. LAWRENCE HALL.

For the past thirty years this hotel, familiarly known as the "St. Lawrence," has been a "household word" to all travellers on the continent of North America, and has been patronized by all the Royal and noble personages who have visited the City of Montreal.

This Hotel has been recently re-taken by Mr. HENRY HOGAN, the former proprietor, who has handsomely and appropriately decorated and renovated the interior, and completely re-fitted the whole of the apartments with new furniture.

The Hotel is admirably situated, being in the very heart of the city, and contiguous to the General Post Office, the principal Banks, Public Buildings, Law Courts, Commercial Exchanges, Railway and Telegraph Offices.

The Hotel will be managed by Mr. SAMUEL MONTGOMERY, under the immediate personal supervision of Mr. HOGAN, than whom no one is better qualified to conduct an hostelry of such magnitude as the St. Lawrence Hall, and than whom no one has gained a better reputation as an obliging, generous and considerate host.
